History of original corner establishment:

Center 1/4 Section corner
Interior corner, not established previously

Description of corner evidence found:

Established by single proportionment between 1/4 section corners
established in B.L.M. Dependent Resurvey of 1960
Note original 1/4 section corners not found by BLM Cadastral Survey;
but were all set at mid points on the section line. Hence the mid
point of the N-S line or the mid point of the E-W line between opposite
corners determines the location of the center of the section.

Description of monument and accessories I established to perpetuate the
original location of this corner

Monument consists of a 2 1/2 inch brass disk welded to the top of a 2 inch
galvanized iron pipe, approximately 30 inches in length, buried approx-
imately 20 inches in the ground with a mound of rock set around the base.
Flat piece of steel is welded to the base of the monument.

Disk is stamped with steel dies as follows
