CERTIFIED RECORD OF LAND CORNER MONUMENTATION
(Reference FSH 5681.65)

History of original corner establishment:

Southwest 1/16 Section corner, not established previously.

Description of corner evidence found:

Established by single proportionment between 1/16 corners
established during the 1960 B.L.M. Dependent Resurvey.

Note -- BLM Cadastral Survey established exterior corners along the
section lines at evenly proportioned distances. Hence any north-south
or east-west line between opposite corners can be evenly proportioned
to locate the interior corners on such line.

Description of monument and accessories I established to perpetuate the
original location of this corner

Monument consists of a 2 1/2 inch brass disk welded to the top of a 2 inch
galvanized iron pipe, approximately 30 inches in length, buried approx-
imately 20 inches in the ground with a mound of rock set around the base.
Flat piece of steel is welded to the base of the monument.
