

No. 23

FOR John Sarias

TOWNSHIP ^{8 and} 9S

RANGE 26E WILL. MER.

In order to find how the lines and corner were located the same being unknown

" began at SW corner Sec 10 T9 R 26E Ran West

80 00 chains and established SW cor Sec 9 Country very rugged and worthless measurement made by Station
160 " " " SW cor Sec 8 " " " " " " " " " " " "

From SW corner Sec 8 T9 R 26E Ran North

40 chains and established NW cor Sec 8 North

80 " " " NW cor Sec 8 in mound of rocks

120 " " found the NW cor Sec 5 in good condition

148 " " found CC corner on West side of Spring branch 2 rods from creek under fence

I then proceeded to S $\frac{1}{4}$ corner of Sec 33 T8 S R 26E said corner missing but its position is right in a hill which has been dug out and curbed up with boards Witness Tree N 20° E as stated in field notes but the other Witness Tree is N 28° S instead S 28° W as given in notes

Thence I ran West

40 ch the SW cor Sec 33, 2 rods E of creek under fence on West

80 " S $\frac{1}{4}$ corner ^{Sec 32} missing I reestablished a set in mound of rocks

120 " SW cor Sec 32 T8 R 26E looked for CC corner did not find it, on West

166 ch found CC corner well marked came back and set NW cor Twp 9 S R 26E Marked CC T9 R 26 4 chains West
SW cor Sec 32 T8 S R 26E
