

750 feet - thence on left-angle  $90^\circ$  475 feet -  
to stone  $6 \times 15 \times 1 \frac{1}{2}$  inches marked M M being NW corner  
of prairie lode. Quartz claim <sup>8</sup> to which this claim  
lies parallel and adjacent.

Made January 12<sup>th</sup> 1897

To locate the above described claims. I first  
examined the NE corner of the section embracing  
said claims and find it to be section 33 T<sub>13</sub> S  
Range 32 East - 8<sup>th</sup> M. and on ranging out -  
North boundary of sec 33 I find  $\frac{1}{4}$  section cor-  
in good condition from which I ran a tie line  
to General Monument - No 8 being NW corner of  
Prairie lode claim and SW cor of Fellows claim  
and find said corner to bear from  $\frac{1}{4}$  cor South  
on Magnetic Course or  $S 19^\circ W$  true course a  
distance of 18 chains <sup>or</sup> 86 links

Made Jan 13<sup>th</sup> 1897

County of Grant ss  
State of Oregon

I hereby Certify that  
on application of Ira Sproul I made  
the foregoing surveys and established the  
corners described therein.

January 14<sup>th</sup> 1897

J. F. White

County Surveyor  
for Grant County Oregon
