

NARRATIVE: This survey was performed at the request of Jim Henning. The purpose of this survey was to create a line through the Middle Tract of the Henning lands as shown on Map of Survey No. 956. The Henning's intend to convey the land between this line and the north line of said middle tract, to James and Theresa Lundstad. The Hennings already conveyed the north tract of land as shown on said Map of Survey No. 956 to the Lundstads. A search was made of the available records pertaining to this survey. Field measurements were made to locate existing controlling monuments. New monuments were set in accordance with the evidence found and at locations approved by Mr. Henning. I found no unusual conditions with this survey.
