NARRATIVE: This survey was performed at the request of Irene Huntington Jensen, Bill Jensen and Orlan Janney. The purpose of this survey was to create a new boundary line between Mr. Janney's land and the land of the Jensen's, as shown hereon.
A search was made of the available records pertaining to this survey. Field measurements were made to locate the South 1/4 corner of sec. 35, monumented with a Grant County Surveyor brass capped iron pipe, which I set in Survey No. 361.
New monuments were set at positions approved by the Jensen's and Mr. Janney forming their new common boundary line. I prepared legal descriptions for the parties involved, to be used in their exchange of deeds pertaining their agreement. This survey was performed with a Wild TC1600 electronic total station instrument.
