A right of way deed was granted by William Lupien for the right of way shown hereon. Prior to the filing of this map of survey, an engineering design change was made making it necessary to increase the right of way width in two places; namely between stations 75+00 left to 79+03.68 left, and between stations 99+62.27 to 105+34.64. We revised the map to reflect these additional right of way widths.
