

NARRATIVE: This survey was performed at the request of Monte Thissell, Dana Jennings and David Kirk. The purpose of this survey was to locate the north 500 feet of the SE1/4SE1/4 of Section 26, and to mark the boundary lines with lath and flagging, as shown hereon.

A search was made of the available records pertaining to this survey. Field measurements were made to locate existing controlling monuments, ie, the four corners of the SE1/4SE1/4 of Section 26, and other monuments as shown, as previously established in Surveys 262, 373, 433 and 519. New monuments were set as shown hereon.

I use the bearing of the line between found monuments at the SE corner of Sec. 26 and the East 1/4 of Sec. 26 as shown on Map of Survey No. 519 for my basis of bearings.

I found no unusual conditions with this survey.
