GRANT COUNTY, OREGON

NARRATIVE: This survey was performed at the request of Bob Kowing, Road Supervisor, acting in behalf of the Grant County Road Department. The purpose of this survey was to locate and monument the proposed relocated right of way lines for this portion of County Road 63.

A search was made of the available records pertaining to this survey. Field measurements were made to locate certain section corners and 1/4 corners, as shown, and the proposed realignment of this road. The right of way lines were positioned at locations approved by Doug Ferguson, P.E., and by Mr. Kowing of the road department. The right of way widths accommodate the cuts and fills necessary for new construction. Various centerline stations are tied to the section and 1/4 section corners as shown hereon. The county acquired deeded right of way through these private lands from 1952 through 1979. The old right of way lines shown hereon are based on the deed record and the best fit with the existing road. New right of way deeds will be acquired for the relocation of this portion of the road. The old road right of way will be vacated for the length of this project only, when replaced by the newly acquired right of way shown hereon.
