COUNTY ROAD NO. 20

NARRATIVE: This survey was performed at the request of Jim Walker, Assistant County Road Supervisor, acting in behalf of the County Road Department. The purpose of this survey was to delineate an area for a rock quarry and rock storage lease site.

A search was made of the available records pertaining to this survey. Field measurements were made to locate the existing County Road 20 and the SE corner of Section 10, which I monumented July 2, 1981, from original evidence. New monuments were set at locations approved by Mr. Walker, as shown hereon. I found no unusual conditions during this survey.
