

#### NARRATIVE:

This survey was performed at the request of Ken Bremner, City of John Day Manager. The purpose of this survey was to locate, establish and monument the right of way lines of a portion of Hillcrest Road, in the City of John Day.

After searching the available records pertaining to this survey, I found that Hillcrest Road, west of this survey, has been located, see Survey No. 1211. Some of the deeds refer to a county road right of way, although the county road can not be precisely located, the deeds indicate that this portion of Hillcrest Road is generally in the same location as the old county road. Due to the relocation of the John Day-Prairie City Highway, the Oregon Transportation Commission abandoned this portion of Hillcrest Road by Resolution No. 666, dated Nov. 15, 1994, recorded Jan. 29, 1996. The City of John Day gained jurisdiction over Hillcrest Road at that time. The City of John Day, in cooperation with the adjoining land owners, have identified the right of way necessary for this portion of Hillcrest Road. I have marked the proposed right of way and recommended to the City Manager that deeds be exchanged with the adjoining land owners.
