LEGEND

- Set 5/8"x30" iron pin with attached red plastic cap marked CORNERSTONE SURVEYING, INC.

Narrative

This survey was performed at the request of John Thomas. The purpose of this survey was to adjust the property lines described in Book 104, Page 179, deeds of Grant County.

The property lines of deed Bk 104, Pg 179 are along certain subdivisional section lines within Section 30. Section 30 has not been subdivided and several controlling corners are missing. An extensive survey would be required to place the boundaries of the deed record. Therefore, it is the intention of this survey to monument new lines to identify a parcel of land which is of equal area to that of the property described in Book 104, Page 179. These new boundaries are at the locations which Mr. Thomas pointed out to me.
