

NARRATIVE

This survey was performed at the request of Andy Jones. The purpose of this survey was to resurvey the property lines and set an offset monument at near the NE corner. Mr. Jones also wanted a monument set on the north and south boundaries as shown.

After searching the available records pertaining to this survey, I found Survey No. 956, recorded October 20, 1986. I recovered the monuments that pertained to this property and set an offset monument near the NE corner on line between found monuments. A monument was set on the north boundary and on the south boundary on line between the found monuments as directed by Mr. Jones.
