- Set 5/8"x30" iron pin with attached red plastic cap marked CORNERSTONE SURVEYING, INC.
- X—X Fence Line
- () Record bearing and distance.
- Found monument, see record map of survey number shown in box.

NARRATIVE

This survey was performed at the request of Jack Cavender. The purpose of this survey was to locate the boundary adjustment lines between the properties of Mr. Cavender and the City of Monument.

A search was made of the available records pertaining to this survey. Field measurements were made to locate the existing road way and the monuments shown hereon. The east line of Section 36 was established in Survey No. 1663 and the boundaries of the Waste Transfer Site were established in Survey No. 1080. I accept the monuments of these two surveys and the present location of County Road No. 3A for the purpose of this boundary adjustment.
