- 1() Partition No. 2000-15 record bearing and distance.
- 2() Partition No. 2001-05 record bearing and distance.

NARRATIVE

This survey was performed at the request of Jeanne Strange and Charles Montgomery. The purpose of this survey was to locate and monument the property corners described in Instrument No.'s 20181966 and 20181284.

A search was made of the available records pertaining to this survey. Field measurements were made to locate the existing monuments and the new corner positions. I accepted the found corners from Survey No. 1621 as shown hereon. I set the remaining corner monuments using the record bearing and distance from the found monuments shown on Land Partition Plat 2000-15 and 2001-05. I also set offset monuments from the center line of the North Fork of the John Day River as shown.

This survey was performed using RTK GPS receivers.
