Timber in this area consists of ponderosa (yellow) pine, Douglas fir, white fir, and juniper with some Noble fir and cottonwood.

Area resurveyed: 15,801.01 Acres

This plat represents a retracement and re-establishment of a portion of the Third Standard Parallel South through Rs. 25 and 26 E., the south, east, and west boundaries, and a portion of the subdivisional lines designed to restore the corners in their true original location according to the best available evidence; and, excepting as new or modified vacant subdivisions are shown hereon, the lottings and areas are as shown on the plat approved October 26, 1874.

The Third Standard Parallel South through R. 25 E. surveyed by Jasper W. Wilkins in 1873.

The Third Standard Parallel South through R. 26 E. surveyed by Alonzo Gesner in 1874 and retraced by Mark A. Fullerton in 1881.

The west boundary surveyed by Wilkins in 1873.

The south and east boundaries and subdivisional lines surveyed by Gesner in 1874.

The east boundary retraced by S.W. Lackland in 1881.

The dependent resurvey of a portion of the Third Standard Parallel South through R. 26 E. and a part of R. 25 E., the south, east and west boundaries, and a portion of the subdivisional lines executed by C. Albert White, October 1, 1959 to August 31, 1960, under Special Instructions dated October 3, 1957, which provide for the surveys included under Group No. 359, Oregon.

UNITED STATES
DEPARTMENT OF THE INTERIOR
BUREAU OF LAND MANAGEMENT
Washington, D.C. May 1, 1962

This plat is strictly conformable to the approved field notes, and the survey, having been correctly executed in accordance with the requirements of law and the regulations of this Bureau, is hereby accepted.

For the Director

E. L. Huntington

Chief, Division of Engineering
