**NARRATIVE:** This survey was performed at the request of Rance Kastor to establish the E1/16 corner of sections 19 and 30, T12S, R32E, W.M.. A search was made of the available records pertaining to this survey. Field measurements were made to locate existing monuments. The new monument was set at mid point and on line between the found monuments at the NE corner of section 30 and the N1/4 corner of section 30. I found no unusual conditions with this survey. See corner restoration sheets filed separately for details of new monument set and description of new bearing trees.
