

**NARRATIVE:** This survey was performed at the request of Dan Rice to delineate the east line of the tract shown hereon. A search was made of the available records pertaining to this survey. Field measurements were made to locate existing monuments. New monuments were set in accordance with the evidence found as shown hereon. I had previously made surveys to the west and to the east of this tract. We used survey no. 285 for control of this survey. I found no unusual conditions with this survey.
