NOTE:
I find no record or existence of an appurtenant geodetic control monument within 1/2 mile of this land partition.

NARRATIVE:

This survey was performed at the request of Jim Neely, of Denny Dahl Realtors, acting in behalf of Arnold and June Hoselton. The purpose of this survey was to delineate PARCELS 1, 2, and 3 of this Land Partition.

A search was made of the available records pertaining to this survey. Field measurements were made to locate existing monuments. New monuments were set in accordance with the evidence found on and at locations approved by Jim Neely and Mr. and Mrs. Hoselton, as shown hereon.

This survey is a retracement of Survey No.'s 285, 389, 652 and 1087 which basically established the exterior boundaries of the Hoselton tract. We also retraced the appurtenant portion of Survey No. 932 which established the north line of the John Day Highway. I performed all of the above surveys at various times.

During this current survey we ran a closed loop control traverse and tied the controlling monumented corners as shown hereon. All the appurtenant corners which were set in Survey No.'s 285, 389, 652 and 1087 were found in good shape or were restored to their original positions.
