EXPIRES: 6/30/2012

July 16, 2010

Grant County Surveyor

EVIDENCE FOUND: Found stone 16"x12"x7" marked 1/4. Stone was lying with the marked face up in a 2 foot mound of stone. There was an East-West fence 0.5 feet south of the stone and a charred 4"x4" wood post about 2 feet West. This stone was pointed out to me by Bob Butler and Rusty Mink from the Oregon Department of Transportation.

DESCRIPTION OF MONUMENTS AND ACCESSORIES SET AND METHODS USED:

At the corner point I set a 1½"x30" galvanized iron pipe with attached Grant County Surveyor Brass cap, 24" in the ground with a 3 ft. mound of stone. We buried the original marked stone North and alongside the new monument. Cap is marked as shown hereon.

FROM WHICH I MARK THE FOLLOWING BEARING TREE:

A juniper 13½ inch diam. bears S.42°E., 143.07 feet, marked "1/4 S5 CSBT".

ALSO FROM WHICH I SET THE FOLLOWING NEW REFERENCE POINTS:

A 5/8"x30" iron pin, bears N.60°51'E., 25.59 ft., with attached 1½" aluminum cap marked "GRANT COUNTY SURVEYOR RP1 2010".

A 5/8"x30" iron pin, bears N.41°56'W., 22.44 ft., with attached 1½" aluminum cap marked "GRANT COUNTY SURVEYOR RP2 2010".

ALSO FROM WHICH I MARK THE FOLLOWING BEARING OBJECT:

A rock outcropping 4 ft.x4 ft.x6 in., above ground bears S.61°W., 7.54 feet marked "X BO" on the Northeast face.

Used a total station to measure to all accessories. The bearings shown hereon are based on the bearing from the brass cap to the center of the blaze on the bearing tree (S.42°E) using a magnetic compass with a 17° East declination.

STATE PLANE COORDINATES: (3601 OR N)
