

CORNER RESTORATION

CORNER: C1/4 Cor. Sec. 25, Twp. 11 S., Range 26 E., W.M.

ORIGINAL SURVEY BY: Robert D. Bagett

SURVEY NUMBER: 117

SURVEY DATE: July 1968

SUBSEQUENT SURVEY:

2002 Survey by Jack Watson, PLS, Record Survey No. 1629

Bagett's Original Description: *Record Survey No. 117 shows that Mr. Bagett established the C1/4 Corner at the intersection of opposite corresponding 1/4 Corners. The map shows that he set a 1/4" iron pipe.*

Watson's 2002 description: *Found 1 1/2" iron pipe, see Survey No. 117.*

EVIDENCE FOUND: Found Bagett's 1 1/4" iron pipe out of the ground and leaning against a rock jack fence corner. The pipe was stamped C1/4 S25 LS 598. A fence runs to the North, South and West from the rock jack.

DESCRIPTION OF MONUMENTS AND ACCESSORIES SET AND METHODS USED: I reestablished the C1/4 Corner at a position determined by a distance-distance intersection from the found monuments at the CW 1/16 Corner and the CS 1/16 Corner. I used the record distance of 1314.36 ft. from Survey No. 1629 from the CW 1/16 Corner and the record distance of 1325.68 ft. from Survey No. 117 from the CS 1/16 Corner. This position fell approximately 1 ft. Southeast from the fence corner. At the corner point I set a 5/8"x10" iron pin, driven to bedrock, with attached 2" aluminum cap marked as shown. (See Record map of Survey No. 1983)

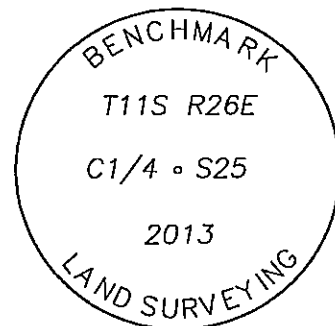

FROM WHICH I scribe new bearing trees:

A ponderosa pine, 7 1/2" diam. bears N.73°E., 29.19 feet, marked X BT;
A ponderosa pine, 16 1/2" diam. bears S.62°E., 20.19 feet marked 1/4 S25 BT;
A ponderosa pine, 17" diam. bears S.43°W., 11.33 feet marked 1/4 S25 BT.
(distances to BT's were measured to a 50d nail driven in the side-center near the root crown of the tree. Attached BT tags to BT's)

ALSO FROM WHICH I set a new reference point:

A 5/8"x30" iron pin bears N.00°46'W., 16.72 feet with attached yellow plastic cap marked BENCHMARK SURVEYING.

Used a total station to measure to BT's and RP. Bearings are based on Record Map of Survey No. 1983.
