Description of corner evidence found:

No evidence is found. Topog call places corner 57 ft.
West from Camp Creek, this is on a tallus slope and
no stone with marks or stone mound is identified.
measurements place the corner approx. 57 ft. East
from the creek. Searched this area without
identifying any evidence.
Established corner position at proportionate measure
Between corners as established by proportionate
measure 1/2 mi. East & West. This places the corner
approx. 57 ft. East from Camp Creek.
It appears that the topog call is reversed from the
Cr. We have found Yorks topog. call to be very
unreliable, with other errors of this kind.

**Description of monument and accessories I established to perpetuate the
original location of this corner:**
