Description of corner evidence found:

Found 12"x10"x6" stone set in a mound of stone. There no marks apparently visible.

There are no accessories originally established. Even though no marks are found on the above described stone, it is accepted as the corner, as Yorks marks are small and unless they are protected they are subject to weather away. Also the stone mound looks like a York mound.

Description of monument and accessories I established to perpetuate the original location of this corner:

Set 2-1/2"x30" aluminum pipe with 3-1/2" aluminum cap, stamped as shown on the **DIAGRAM**, SET 18" in the ground, set the original stone West of the pipe, in a ring of stone filed with earth.

From Which:
