Description of corner evidence found:

No identifiable evidence is found, there is a N-S
fence through the area. Found a mound of stone,
however it looks like an old rock jack and does not
look like an original mound and is not old enough.
There are no accessories originally established.
There is a call to the Creek 1/2 chain North, I cannot
determine where the creek was running in 1873.
The Corner has been lost to fencing and the position
is determined at proportionate measure between between
the previously proportioned corners 1/2 mi. North and
South. (Note: See CERTIFIED RECORD OF LAND CORNER
MONUMENTATION forms as referenced to this Survey No.
955 for the corners 1/2 mi. North and South.)

**Description of monument and accessories | established to perpetuate the
original location of this corner:**
