

CERTIFIED RECORD OF LAND CORNER MONUMENTATION

History of original corner establishment:

Set by Bamford Robb and Herman D. Gradon in 1881 under their joint contract no. 383, dated March 26, 1881.

Set a stone 14x6x6 from which A pine 24 in. diam bears S.20°W. 45 lks. dist; A pine 24 in. diam. bears S.30°E. 73 lks. dist.

Frank J. Van Winkle in his survey in 1917 reports "A stone 13x8x5 ins. above ground, mkd. 1/4 on W face; from which pine 23 ins. dia. bears S.28°E. 73 lks. dist. mkd. 1/4 S BT."

Geo. W. Root in his survey of HES 252 in 1922 reports "A basalt stone 6x6x5 ins. above ground, firmly set, marked, and witnessed as described by the Surveyor General."

Description of corner evidence found:

A downed 26" pine with visible scribing and a stump hole depression. Also there are two undocumented line trees to the north. After a diligent search I found no evidence of the original monument. I take the hole at the base of the downed 26" pine to be the position of the original SW bearing tree and the depression to be the position of the original SE bearing tree. I use the record bearings and distances from the original notes to determine the true position of this corner which is in a small skid road.

Description of monument and accessories I established to perpetuate the original location of this corner:

At the corner position I set a standard 3 1/4" diameter aluminum cap, with magnet attached to underside, mounted on a 2" diameter by 30" long aluminum pipe. I surrounded the monument with a mound of stone and stamped the cap as shown.

I took a 9" black pine which bears S.60°E., 9.3 feet and scribed it 1/4S6BT for one bearing tree and an 11" black pine which bears S.67°W., 20.6 feet and scribed it 1/4S1BT for a second bearing tree.
