

CERTIFIED RECORD OF LAND CORNER MONUMENTATION.

**History of original corner establishment:**

Set by Herman D. Gradon in 1881  
under his contract no. 416 dated August 19, 1881.

Set a basalt stone 12x12x5 ins. 8 ins. in the ground,  
marked  $\frac{1}{4}$  on W face; from which a Pine 30 ins. diam. bears  
N.70°E. 14 lks. dist. marked  $\frac{1}{4}$  S BT.; A tamarack 8 ins.  
diam. bears N.15°W. 32 lks. dist. marked  $\frac{1}{4}$  S BT.

Frank J. Van Winkle in his survey in 1917 reports "A stone 9x9x5 ins. above  
ground mkd.  $\frac{1}{4}$  on W face; from which Pine 34 ins. dia. bears N.70°E. 13 lks. dist.  
marked  $\frac{1}{4}$  S BT.; Tam. 12 ins. dia. bears N.16°W. 32 lks. dist. mkd.  $\frac{1}{4}$  S BT."

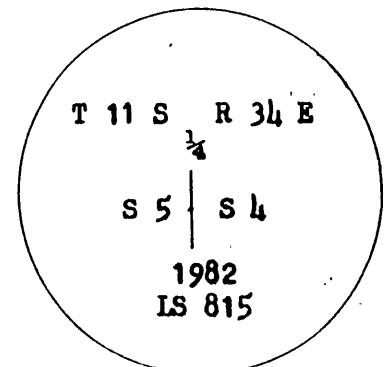

Geo. W. Root in his survey of HES 252 in 1922 reports "A basalt stone, 12x5x4 ins,  
above ground, firmly set, marked, and witnessed as described by the Surveyor  
General."

**Description of corner evidence found:**

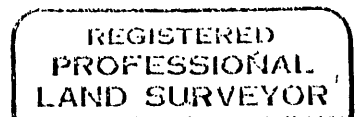

A 5 stone mound, no stone having any readily identifiable markings, and a 14"  
Tamarack snag, with visible scribing, 21.1 feet N.15°W. from the center of the  
mound and a 36" Pine, with visible scribing, 9.2 feet N.70°E. from the center  
of the mound. It appears that the trees are the originals and if the stone  
mound is not original it has at least been constructed in the original position  
and I accept the center of the mound as the original corner position.

**Description of monument and accessories I established to perpetuate the  
original location of this corner:**

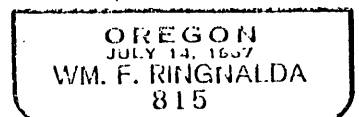

At the corner position I set a standard 3 $\frac{1}{4}$ " diameter alumi-  
num cap, with magnet attached to underside, mounted on a  
2" diameter by 30" long aluminum pipe. I surrounded the  
monument with a mound of stone and stamped the cap as  
shown.

I took an 11" fir which bears N.44°W., 14.1 feet as a new bearing tree and  
scribed it 1/4 S5BT.
