

CERTIFIED RECORD OF LAND CORNER MONUMENTATION

History of original corner establishment:

Original corner established by: William Gradon, Deputy Surveyor, under Contract No 497, dated March 7, 1884.

Surveyor General Record States: Set basalt stone 12x12x6 ins. 8 ins. in ground for 1/4 corner marked 1/4 on west face. From which A pine 40" diam bears N20°E, 23 lks marked 1/4SBT.

A pine 61" diam bears N60°W, 30 lks marked 1/4SBT..

Michael Spears, Grant County Surveyor, set an iron pipe with brass cap for this corner in 1914, see Survey No. 7G. The notes indicate he did not find the original corner monument.

Bert Udell reported finding this corner and accessories in 1959.

He reported that the NW BT was originally 6" not 61" in diameter and a home made brass cap supposedly for this corner was about 250 ft. SE and it is obviously haywire.

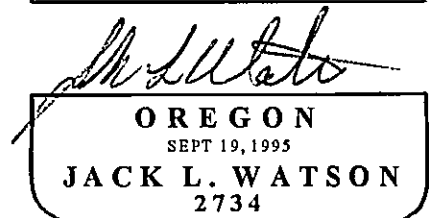

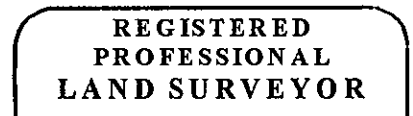

Description of corner evidence found:

I found a stone 13x12x7 inches marked 1/4, set upright in a ring of stones. From which:

A 42" P.Pine bears N13°E, 14.8 ft to face, with visible scribing.

A 14" P.Pine snag bears N60°W, 23.4 ft to face, with visible scribing.

I also found a 1" iron pipe with brass cap set by Michael Spears, S84°14'E, 410 ft. I do not accept this monument for the corner position.

Renewal Date 6/30/2012

Description of monument and accessories set at corner location:

I accept the marked corner stone for the corner position. I set a 2 1/2"x30" aluminum pipe with attached 3 1/2" aluminum cap, surrounded by a mound of stone. The cap is stamped as shown in the diagram. I buried the original marked corner stone north and alongside the aluminum pipe.

From which I scribe new bearing trees:

A 13" Fir bears N48°E, 21.2 ft., marked 1/4S16BT.

A 16" Fir bears S50°E, 5.3 ft., marked 1/4S16BT.

A 11" P.Pine bears N83°W, 45.1 ft., marked 1/4S17BT.

I used a steel tape measuring to a 50d nail driven in the side center at the root crown of the new BT's and magnetic compass, with 18° E. declination.
