EVIDENCE FOUND:

I found a volcanic stone 17"x12"x9" marked $\frac{1}{4}$ lying with the marked side down in a 4" depression in the ground where the corner has been for years. This corner was found by the forest service and was shown to me by Rance Kastor, local rancher. I accept the position of the stone for the $N\frac{1}{4}$ corner of Sec. 29 as it is harmoniously related to other known corners in the area. It appears that someone recently scratched over the marks on the stone with a nail or other object.

DESCRIPTION OF MONUMENTS AND ACCESSORIES SET AND METHODS USED: Show how trees are scribed and basis of bearings, including compass var.

In place of the corner stone, I set a $1\frac{1}{2}$ "x30" galvanized iron pipe 30 inches in the ground with attached brass cap marked as shown, from which I scribe
NEW BEARING TREES:

A yellow pine, 8 inches in diam., bears S. 55° E.,
78.2 feet dist., marked T12S R32 E $\frac{1}{4}$ S29 CSBT.
A western larch, 24 inches in diam., bears N. 40°
W., 24.1 ft. dist., marked T12SR32E $\frac{1}{4}$ S20 CSBT.

I buried the corner stone East and alongside the iron pipe. I used a magnetic compass with 20° E. variation and a steel tape measuring to the head of a large nail driven flush with the BT blaze at root crown. I painted the blazes and a 6" band around both BTs with red timber marking paint and attached county surveyor BT tape to both BTs.
