Vernon Glaze, Grant County Surveyor, 1914: Common Gov. 1/4 Cor. sec. 1-6 set iron post with Brass cap marked and wooden post 4x4x4.0 scribed erected monument of stone...

EVIDENCE FOUND: Found Glaze's iron pipe and brass cap set firm in a rock out crop. The pipe is driven into a fissure in the out crop to a point where the brass cap is 16 inches above the rock surface. There is a mound of stone around the monument. A fence runs North and South adjacent to the monument. There is a fence corner with fences running North, East and South approximately 7 feet South of the monument.

AT THE CORNER POINT: I made no change to the found monument set by Vernon Glaze.

1914 Glaze Brass Cap

Used RTK GPS to measure to RP's. Used a compass with 15° East declination and a steel tape to measure to BT's. Distance to BT's is measured to a 50d nail driven into the side-center at the root crown of the tree. I attached BT tags to trees.
