

TOWNSHIP 13 SOUTH, RANGE 34 East

At NE corner of this township, I found a marked stone, 14x9x7, in rock mound and two scribed BT's with nearly 80 years annual rings in overgrowth scar tissue. These must be original BT's, but bearings and distances do not check well with original notes. There are original line blazes running west and south and I believe this must be original corner. There are very old Forest Boundary tags running south and west from this corner also.

Found BT's as follows:

a 26" Pine N 22 W 66.9 ft.

a 26" Pine Snag N 40 E 80.5 ft.

Marked new trees as follows:

20" Fir S 15 W 27.1 ft. "S 1 CS"

28" Fir S 28 E 19.8 ft. "S 6 CS"

East $\frac{1}{4}$ Sec. 1

Found original marked stone. I built stone mound around it and scribed new BT's as follows:

18" Pine N 64 W 28.4 ft. " $\frac{1}{2}$ S CS"

16" Pine N 25 E 50.3 ft. " $\frac{1}{4}$ S CS"

East $\frac{1}{4}$ Sec. 12

Found original marked stone. I built stone mound around and scribed new BT's as follows:

17" Pine S 37 East 17.9 ft. " $\frac{1}{4}$ S CS"

22" Pine N 77 W 10.7 ft. " $\frac{1}{4}$ S CS"

SE Corner Section 1

I could not locate this and hence set approximate proportional corner between $\frac{1}{4}$ corners North and South. Set stone in mound and put location tag on 7" Fir N 31 W _____ feet.

S $\frac{1}{4}$ Section 12/13

Found Marked stone and low cut stump 38" of very old witness tree N 7 E 6.0 ft.

I put location tag on top of stump and re-scribed " $\frac{1}{4}$ S" on orig. stump.

Built stone mound around same.

$\frac{11}{12}$
 $\frac{14}{13}$

Found properly marked stone in mound in fence line about 50 ft. above new logging road.

I scribed four new small BT's, but my notes are incomplete as to size, species, brg. and distance.

I put location tag at gate in fence on logging road about 50 ft. south of corner.

About approximate location of $\frac{1}{4}$ 10/11 I found stone in old mound, but stone does not match original notes. I find no proof of this corner in field. Do you have any recorded information on this one?

NW Cor. Sec. 11

At approximate location of NW corner Section 11, I find a marked stone in mound about 60 ft. east of fence corner. This mound is very old and witnessed by a pine scribed "BT" at least 50 years ago. (We chopped it out and counted the annual rings on the overgrowth). The stone does not match the original notes and I do not find any proof of this original corner in the field. Do you have any recorded information on this corner? (The BT is about 30" Y. Pine about 80 ft. S75W of stone in mound.)
