

CORNER RESTORATION

CORNER: S1/4 Cor. Sec. 2, Twp. 14 S., Range 30 E., W.M.

ORIGINAL SURVEY BY: S.W. Lackland

SURVEY NUMBER: 357

CONTRACT DATE: July 2, 1880

SUBSEQUENT SURVEY: By Robert Bagett, Grant County Surveyor 1973

ORIGINAL G.L.O. DESCRIPTION: Set Stone 16x12x4 in mound of stone for 1/4 sec. cor.

Bagett's 1973 description: Found a basalt stone 17x10x4 ins. marked "1/4 S" in a rockjack of fences running North and West. Remains of old fence line here. This position is in harmony with the 1/4 cor. 1 mile east...At the corner point: set an iron pipe 1 1/2"x36", 30 ins in the ground with brass cap marked as shown. From which New Bearing Trees: A juniper, 12 ins. diam., bears S.61°E., 44.0 ft., scribed 1/4 S11 CSBT; A juniper, 10 ins. diam., bears N.79°W., 66.4 ft. scribed 1/4 S2 CSBT. Buried original cor. stone East and Alongside pipe....Cor. is 1 ft. S. of a fence cor.

EVIDENCE FOUND: Found Bagett's 1973 monument in place and in good condition. Monument is about 1 foot South of a fence corner with fences running North and West. Found the 1973 Bearing Tree to the Northwest healthy with the upper and lower blazes mostly healed over. The Southeast Bearing Tree has been cut as part of a juniper clearing project.

DESCRIPTION OF MONUMENTS AND ACCESSORIES SET AND METHODS USED:

At the found monument, I set a fiberglass witness post northerly of the monument.

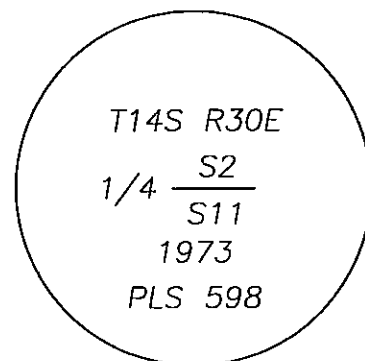

FROM WHICH, I SET THE FOLLOWING NEW REFERENCE POINTS:

A 5/8"x30" iron pin, bears N.02°10'E., 12.05 ft., with attached 1 1/2" green plastic cap marked "GCS RP" (near a North-South fence).

A 5/8"x30" iron pin, bears S.25°45'E., 7.23 ft., with attached 1 1/2" green plastic cap marked "GCS RP"

A 5/8"x30" iron pin, bears N.89°54'W., 12.00 ft., with attached 1 1/2" green plastic cap marked "GCS RP" (near an East-West fence).

The basis of bearings for the new reference points is the record bearing of N.79°00'W. from the brass cap to the top of the upper blaze of remaining 1973 Bearing Tree.

ALSO FROM WHICH, THE REMAINING 1973 BEARING TREE:

A juniper, 15" diam. bears N.79°00'W., 67.1 feet, with mostly healed upper and lower blazes. Attached a new BT tag to the tree with record course and new distance to the brass cap. Distance is measured to a 50d nail in the south side-center of the tree.

STATE PLANE COORDINATES (3601 OR N)

Reference Datum: NAD83(2011) From OPUS Solution

Northing: 262,560.8 ft.

Easting: 8,572,503.1 ft

Ellip. Ht: 3,550.3 ft
