ATTEST:

EXPIRES: 6/30/2012

July 27, 2010

Grant County Surveyor

EVIDENCE FOUND: We found the original stone, 18"X12"X5", marked 1/4 lying loose in a 3 ft. mound of stones. We also found the original BT: a juniper, 28" diam. with healed blaze, bears S.14°W., 87.7 feet to North face of tree. I accept the position of the found marked stone for the 1/4 Corner.

DESCRIPTION OF MONUMENTS AND ACCESSORIES SET AND METHODS USED:

At the corner point I set a 5/8"x10" iron pin driven into bedrock with attached 2" aluminum Grant County Surveyor cap. Built a 3 ft. mound of stone. We placed the original marked stone alongside the new monument. Cap is marked as shown hereon.

FROM WHICH I MARK THE FOLLOWING BEARING TREES:

A juniper 12½ inch diam bears N.42°E., 63.5 feet, marked "T17SR27E1/4S23 CSBT"

A juniper 17½ inch diam. bears S.80°E., 28.93 feet, marked "T17SR27E1/4S26 CSBT"

A juniper 3 inch diam bears S.78°W., 70.4 feet, marked "X BT"

A juniper 3½ inch diam bears N.54°W., 48.0 feet, marked "X BT"

Used a magnetic compass with a 17° east variance and a steel tape to measure to the BT's. Placed BT tags on new and original BT's.

NOTE: The state plane coordinates shown hereon are approximate at best.

They are not intended to be an accessory to the subject corner position.

Coordinates shown hereon have been rounded to the nearest 10 feet.
