

CERTIFIED RECORD OF LAND CORNER MONUMENTATION

History of original corner establishment:

Corner was established by Bamford Robb, US Deputy Surveyor, during the original survey Joint Contract No. 357 dated July, 1880.

Set post for cor to Secs. 1, 2, 35 & 36 with pits and mound as per instruction

PLS 699	

Description of corner evidence found:

The corner falls in an old rail fence and no evidence of the original corner could be found. A cruiser tag on a nearby tree did not have any bearing or distance to the assumed corner.

Description of monument and accessories I established to perpetuate the original location of this corner:

Set a 2"x30" aluminum pipe with a 3 1/4" aluminum cap, marked as shown in the diagram, 24" in the ground, at single proportionate measurements from adjacent found corners and using found line trees for alignment control. Built a mound of rock & earth to be 30" in diameter by 6" high around the monument, from which new BTs are:

14" Ponderosa pine bears N30° 15'E, 137.5 feet scribed T16SR30E S36 BT

15" Ponderosa pine bears S82° 15'E, 106.3 feet scribed T17SR30E S1 BT

11" Ponderosa pine bears S70° 30'W, 101.6 feet scribed T17SR30E S2 BT

Only other good possible bearing tree has fence attached and could not be marked.

Attached BT and Attention signs to and painted a red band around each BT. Bearings were turned from the control traverse with a theodolite, basis of bearing being a solar observation, to stamped aluminum washers nailed in the scribed red-painted blazes. Distances were measured from a 60d spike, with an aluminum washer stamped PLS 699, which was driven into the side of each BT approximately one foot above the ground.

Set steel fence posts 5 feet S and 5 feet E of the corner on the National Forest property lines. Attached Forest Boundary signs to each post and an Attention sign to the S post.

I, Leland L. Myers, P.O. Box 98, Sumpter, OR 97877, do hereby certify that on April 30, 1986, I re-established the corner as herein described.
