Description of corner evidence found:

Found a 46" Ponderosa pine that has recently been broken off and is about 15' high. The tree has grown over blazes and has an E-W fence attached. There is not any evidence of any other large tree near this location. The tree stub was accepted as the line tree.

Description of monument and accessories I established to perpetuate the original location of this corner:

Used the center of the Line Tree as the angle point. Painted an red band around the tree and attached an attention sign to the tree.

Set a 2" alum. pipe with 3 1/4" alum. cap as Reference Monument 8.8 feet South of the Line Tree 22" in the ground to rock, with rock and earth mound 28" in diameter by 6" high, marked RM AP-LINE TREE 8.8' ↑ 1986 PLS699.
Set steel fence posts 5 feet W and 50 feet E of the line tree angle point on the National Forest property lines. Attached Forest Boundary signs to each post and an Attention sign to the W post.

I, Leland L. Myers, P.O. Box 98, Sumpter, OR 97877, do hereby certify that on May 26, 1986, I monumented the corner as herein described.
