PLS 699

Description of corner evidence found:

A Ponderosa pine stump 44" in diameter with an old long butt laying alongside. The long butt has a partial blaze. There is no evidence of any other large tree in the vicinity of the line tree. The stump and long butt are accepted as the remains of the line tree.

Description of monument and accessories I established to perpetuate the original location of this corner:

Set a 2"x30" aluminum pipe with 3 1/4" aluminum cap, marked as shown in the diagram, 26" in the ground in the center of the rotted Line Tree stump as the angle point. Painted an red band around the top of the stump and attached an attention sign to the stump.

Set steel fence posts 5 feet E and 5 feet W of the line tree angle point on the National Forest property lines. Attached Forest Boundary signs to each post and an Attention sign to the E post.

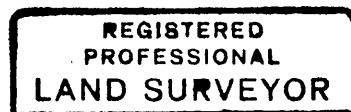

I, Leland L. Myers, P.O. Box 98, Sumpter, OR 97877, do hereby certify that on May 26, 1986, I monumented the corner as herein described.
