PLS 699

Description of corner evidence found:

15x8x6 stone marked with 1/4 with two other rocks set in the ground with the 1/4 face up. The rock dimensions are somewhat smaller than record, but was near the computed location between the section corners and is properly marked. Therefore, the marked stone was accepted as the corner.

Stump Hole bears at near record bearing and distance from the rock. Believed to be the last evidence of the original BT.

Description of monument and accessories I established to perpetuate the original location of this corner:

Set a 2"x30" aluminum pipe with a 3 1/4" aluminum cap, marked as shown in the diagram, 26" in the ground, replacing the rock which is turned upside down and buried on the north side of the monument. Built a mound of rock & earth to be 30" in diameter by 4" high around the monument, from which new BTs are:

14" Ponderosa pine bears N18° 30'E, 69.6 feet scribed 1/4 S2 BT

16" Ponderosa pine bears S75° 30'W, 56.0 feet scribed 1/4 S11 BT

Attached BT and Attention signs to and painted a red band around each BT. Bearings were turned from the control traverse with a theodolite, basis of bearing being a solar observation, to stamped brass washers nailed in the scribed red-painted blazes. Distances were measured from a 60d spike, with an aluminum washer stamped PLS 699, which was driven into the side of each BT approximately one foot above the ground.

Set a steel fence post 5 feet W of the corner with an Attention sign attached. The monument is not a National Forest property corner.

I, Leland L. Myers, P.O. Box 98, Sumpter, OR 97877, do hereby certify that on June 26, 1986, I monumented the corner as herein described.
