Description of Corner Evidence Found:
Original corner stone not found.

Found a portion of a Pine tree with 2 cresent shaped scribe marks, on a portion of a blaze face, the rest of the scribing is burnt off. This scribing came from the southeast bearing tree, which is a broken off snag, standing up slope,"west" from the remains with the scribing. Found a root hole for the northeast Bearing Tree. Both trees fit well for bearing, and when slope chained they fit exactly. Set the monument S61°W, 73.8' from the roothole and N79°W, 69.5' from the snag.

Description of monument and accessories I established to perpetuate the original location of this corner:
