F.B.5 P.11 & 12
Z-7

Description of corner evidence found:

At assumed corner location found sandstone 14"X12"X11" lying loose on top of dirt and loose rock slide near toe break of steep hill Southeast slope. Stone was marked "T" on top face. Examination of site indicated stone has slid downhill from probable corner location indicated by proportionate measurement. The surface of this hill is unstable and erosive process have caused stone movement to present location. No stone mound found and stone scarce in corner vicinity. Since stone appears disturbed and no evidence of its original location remains I consider corner lost and re-establish by survey.

Description of monument and accessories I established to perpetuate the original location of this corner:

At proportionate position as determined by survey, set 2 1/2 inch O.D. 30 inch long aluminum pipe 24 inches in ground to bedrock with 3 1/4 inch aluminum cap marked as shown:

Marked new bearing trees:

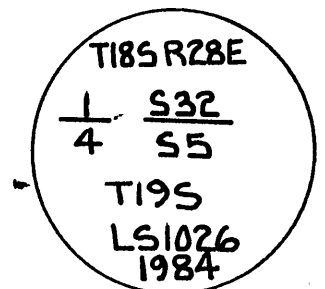

a 7" Juniper bears North 5°00' West, 100.2 ft., scribed-1/4S32BT;
a 22" Ponderosa Pine bears South 78°45' West, 20.1 ft., scribed-1/4S5BT.

Deposited original stone East of cap and raised stone mound 2 foot diameter to cap. Painted red band and faces red and nailed signs 54-3 and 54-4 to new bearing trees.

Set steel post 6 feet West with sign 54-4 facing cap. Nailed brass washer stamped-AS&E LS1026-to face of new bearing trees.

I hereby certify the above corner monument was re-established as herein described on August 9, 1984.
